PROFESSIONAL SUMMARY

ISTQB-certified QA engineer with 6+ years of experience in manual and automated testing of web, mobile and API applications. Currently building UI automation with Playwright and TypeScript for the Drillhole Manager (DHM) product at Hexagon Mining. Strong background in Selenium (Java and C#), API testing with Postman and Rest Assured, cross-browser testing on BrowserStack and Sauce Labs, accessibility testing against WCAG, and running regression suites in Azure DevOps and Jenkins pipelines. Ready to take on a Test Lead role.

TECHNICAL SKILLS

Test Automation	Playwright (TypeScript, JavaScript), Selenium WebDriver (Java, C#), Appium
Frameworks	TestNG, Cucumber, NUnit, MSTest, SpecFlow, Hybrid framework, Page Object Model
API Testing	Postman, Rest Assured
Languages	TypeScript, JavaScript, Java, C#, SQL
Cloud Testing	BrowserStack, Sauce Labs (cross-browser and mobile)
CI/CD & Build	Azure DevOps, Jenkins, Maven
Version Control	Git, GitHub, Bitbucket
Test & Defect Mgmt	Jira, Rally (Agile Central), TestRail, Zephyr, Confluence
Testing Types	Functional, Regression, Smoke, Sanity, Integration, Exploratory, API, Mobile, Accessibility (WCAG)

PROFESSIONAL EXPERIENCE

Senior Software Engineer | Hexagon Mining
May 2025 – Present

Hyderabad, Telangana · Hybrid

Product: Drillhole Manager (DHM) UI

- Design and build end-to-end UI automation for the DHM web application using **Playwright with TypeScript**.
- Structure test suites with the Page Object Model, Playwright fixtures and reusable helpers so tests stay readable and easy to maintain.
- Run tests across Chromium, Firefox and WebKit, and on real browsers and devices through BrowserStack and Sauce Labs.
- Integrate automated regression into Azure DevOps and Jenkins pipelines so every build is tested before release.
- Debug failing tests using Playwright traces, screenshots and HTML reports, and report clear, reproducible defects to developers.
- Perform accessibility testing against WCAG: keyboard navigation, screen-reader support, color contrast and form labels.
- Contribute to existing automation suites built with TestNG, Cucumber, NUnit and MSTest.

Engineer | QualityAI
Jul 2022 – May 2025

Hyderabad, Telangana · Hybrid

Client: Ancestry (genealogy platform: historical records, family trees and DNA)

- Designed and executed automation scripts using Selenium WebDriver with Java in a hybrid framework built on Maven and TestNG.
- Maintained automation scripts against changing functionality for each release.
- Created, scheduled and ran Jenkins jobs for automated regression.
- Reviewed code changes and created pull requests on GitHub.
- Performed backend API testing with Postman and Rest Assured.

- Tested messaging and record, image and DNA sharing via Email, Twitter, Facebook and WhatsApp across web and mobile, using Sauce Labs for mobile devices.
- Shared regular test reports with the onsite QA Manager.

Test Engineer | ZenQ **Nov 2020 – Jun 2022**

Hyderabad, Telangana · Hybrid

Client: Ancestry

- Analyzed functional requirements and user stories to prepare test scenarios, test data and functional test cases for web and mobile.
- Executed sanity, smoke, integration, exploratory and regression testing on the latest builds.
- Logged and tracked defects through the defect life cycle in Rally, and managed test cases in TestRail.
- Delivered pilot automation projects using Selenium WebDriver with C#, NUnit and SpecFlow.
- Documented processes, practices and observations in Confluence.

CERTIFICATION

ISTQB Certified Tester, Foundation Level (CTFL) **Dec 2022**

Indian Testing Board · Credential ID ITB-CTFL-119032

EDUCATION

Bachelor of Technology (B.Tech)

Vaagdevi College of Engineering, affiliated to JNTUH · First Class with Distinction
